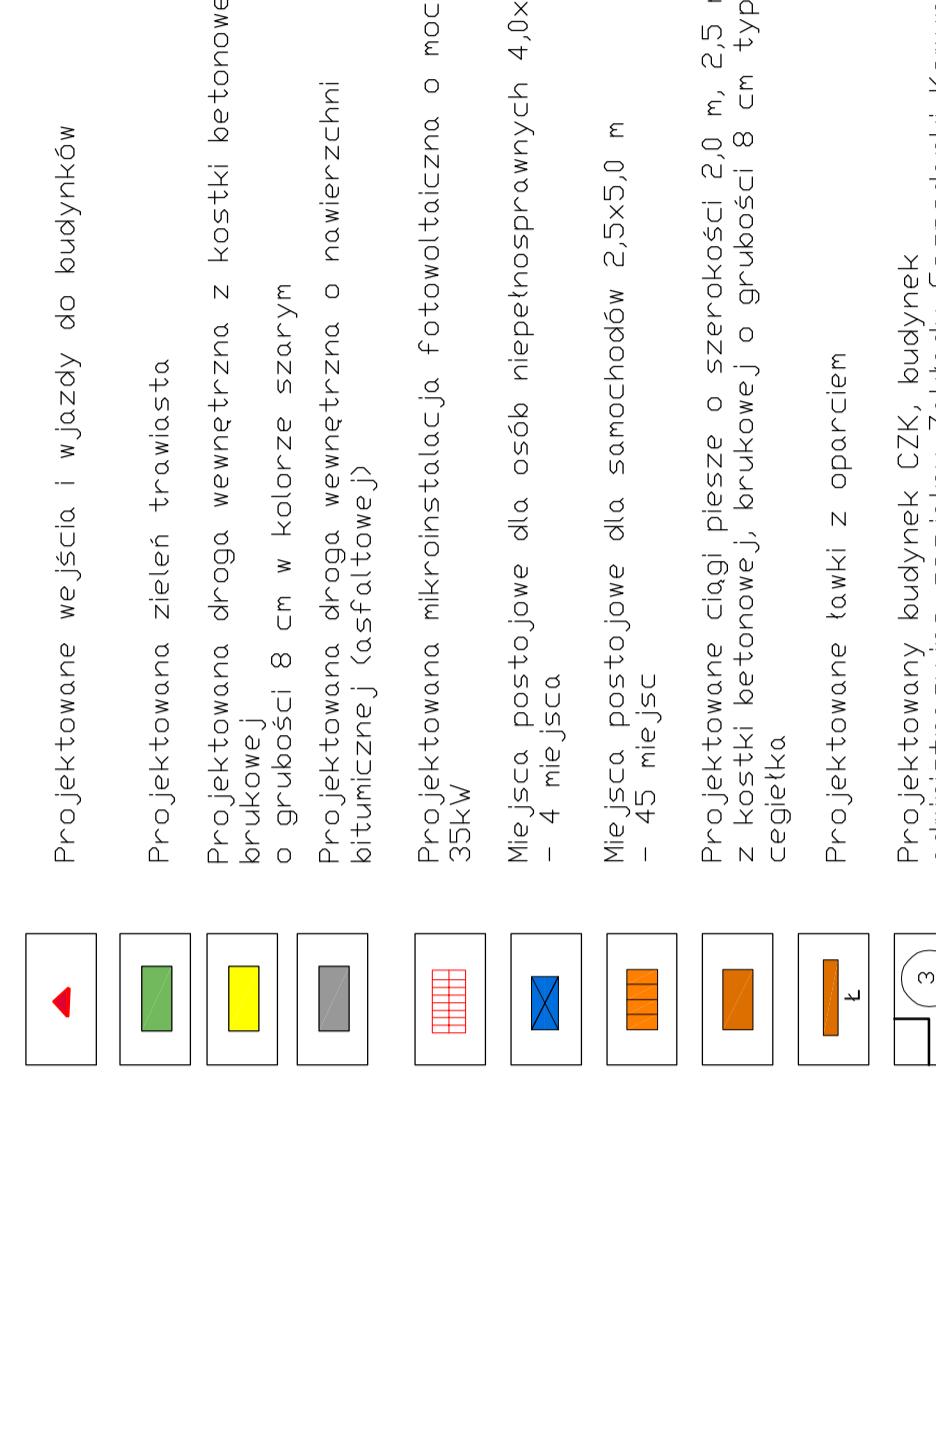

Diagram illustrating the road network and project locations:

- Junction 2:** Located at coordinate 469.
- Junction 1:** Located at coordinate 98.3.
- Junction 4:** Located at coordinate 470.
- Junction 5:** Located at coordinate 98.4.

The network consists of the following segments:

- Segment R: Main road connecting Junction 2 and Junction 1.
- Segment RivA: Road connecting Junction 1 and Junction 4.
- Segment 2-4: Road connecting Junction 2 and Junction 4.
- Segment 2-5: Road connecting Junction 2 and Junction 5.
- Segment 1-5: Road connecting Junction 1 and Junction 5.
- Segment 1-4: Road connecting Junction 1 and Junction 4.
- Segment 4-5: Road connecting Junction 4 and Junction 5.

Project locations:

- Project 1:** Located at Junction 1 (Coordinate 98.3).
- Project 2:** Located at Junction 2 (Coordinate 469).
- Project 3:** Located at Junction 4 (Coordinate 470).
- Project 4:** Located at Junction 5 (Coordinate 98.4).

The diagram illustrates the first stage of the projective walk (I etap realizacji przeznaczony obiektu mostu). It shows a perspective view of a bridge structure with two parallel lines representing the walkway. A vertical line labeled 'PROJEKTOWANY WJAZD NA DZIAŁKE nr 491' is positioned to the left of the walkway. The walkway has a green arrow pointing towards the right. A red arrow points upwards from the walkway towards the top right corner of the slide.
